

# SensLynx Refrigeration Monitoring Solution

# Refrigeration Monitoring Solution – Meet Our Solution

- ❑ Monitors cooler, refrigerator and freezer performance
- ❑ Enforced food safety regulations from Food Safety Modernization Act (FSMA) often require around-the-clock monitoring at 15-minute intervals
- ❑ Cost of a defrosted refrigerator one time > two years monitoring solution
- ❑ Eliminates manual/paper monitoring
- ❑ Prevents food spoilage and costly damage to equipment
- ❑ Immediate alert sent with temperature or humidity fluctuations

# Refrigeration Monitoring

## Commercial Refrigeration

- ❑ Our Commercial Refrigeration monitoring solution gives you everything you need to achieve around-the-clock regulatory compliance.
- ❑ Monitors temperature and humidity
  - ❑ Receive instant, actionable alerts as soon as a problem is detected
  - ❑ Quickly document the necessary course of action to address alerts
  - ❑ Receive scheduled and on-demand reports with detailed temperature/humidity readings

# Refrigeration Monitoring

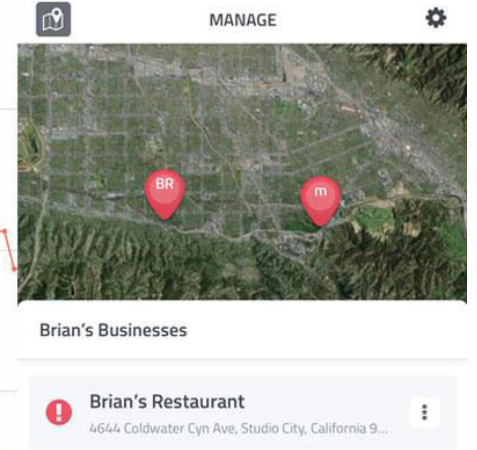

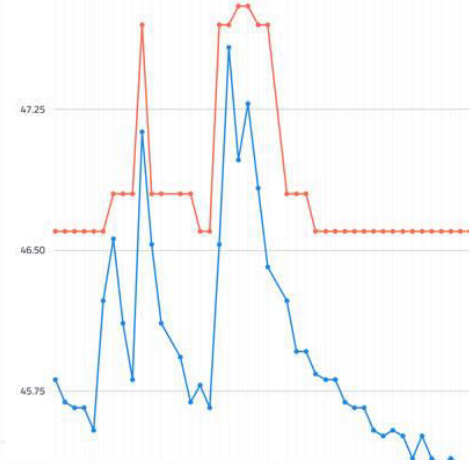

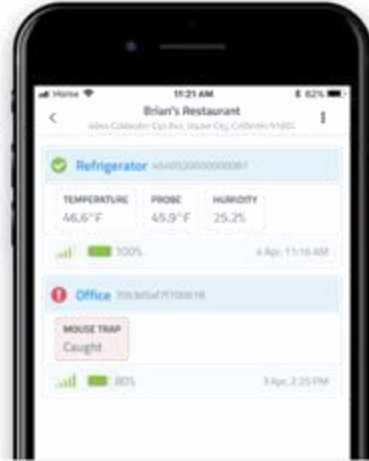

- ❑ The packaged kit includes:
  - ❑ Gateway
  - ❑ Sensor(s)
  - ❑ Web/Mobile App
  - ❑ Compliance Reports
- ❑ Additional Sensors Available
  - ❑ Water, Motion, Light, Door open, food prep surfaces
  - ❑ Prevent damage and failures before they happen
  - ❑ Address issues immediately

# Easy Instant Alerts and Reporting

## Protect your assets around the clock.

Monitor all of your assets at any time, from anywhere using our web and mobile apps. Set sensor reading thresholds to efficiently manage compliance record-keeping.

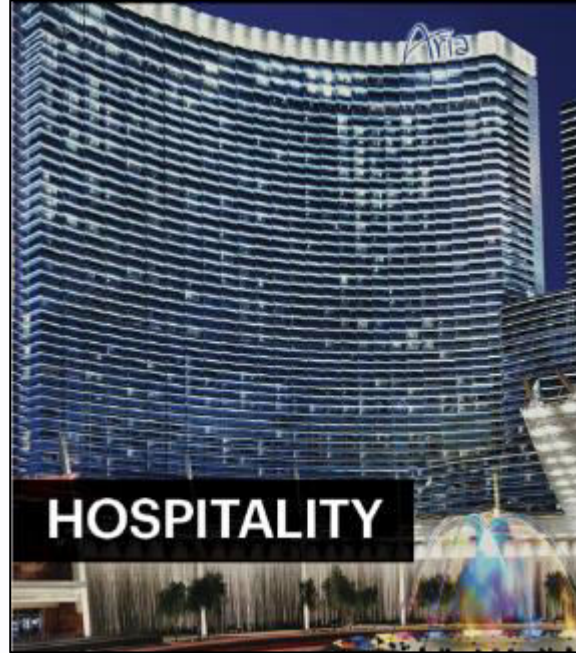

## Get notified instantly when problems are detected

Receive instant, actionable alerts via SMS text messages and emails anytime issues are detected. Configure alert settings to manage incidents.
